

VIRGIN AUSTRALIA SUPPORTS AUSTRALIAN TRAVELLERS WITH EXTRA SERVICES

Date: 20 October 2011

Further to yesterday's media announcement by the Virgin Australia group of airlines regarding the introduction of additional capacity over the coming months, following are details of 32 additional domestic services on sale immediately for travel between 23 – 30 October 2011.

These services have been implemented to meet market requirements and to minimise the impact of ongoing Qantas industrial action on the Australian travel and tourism industry. The flights listed below represent additional capacity in excess of 4,500 seats operated by Virgin Australia aircraft and crew.

Planning is ongoing for further extra services to be added over the coming months.

Details of the confirmed 32 additional services follow:
